CALL FOR PAPERS

September 8-11, 1998
The Marriott Hotel, Copley Place
Boston, Massachusetts

Organization

General Chair: Dennis F. Strigl, President and CEO, Bell Atlantic NYNEX Mobile
Organizer and Technical Program Chair: Kaveh Pahlavan, Worcester Polytechnic Institute

Technical Program Members (Tentative):
Ramon Agusti, Universitat Politecnica de Catalunya, SPAIN
Jorgen Bach Andersen, Aalborg University, DENMARK
Victor Bahl, Microsoft Research
Walter Baier, University of Kaiserslautern, GERMANY
Yeheskel BarNess, New Jersey Institute of Technology
Li Fung Chang, Bellcore
K.C. Chen, National Tsing Hua University, TAIWAN
Pierre Chevillat, IBM Zurich Research Division, SWITZERLAND
Justin Chuang, AT&T Newman Springs Laboratory
Gerry Flynn, Bell Atlantic NYNEX Mobile
Tom Freeburg, Motorola, Inc.
Savo Glisic, University of Oulu, FINLAND
Zygmunt Haas, Cornell University
Mohsen Kavehrad, Pennsylvania State University
Ryuji Kohno, Yokohama National University, JAPAN
Jae Hong Lee, Seoul National University, KOREA
Pentti Leppanen, University of Oulu, FINLAND
Khaled Ben Letaief, Hong Kong Univ. of Science and Technology
Allen Levesque, GTE Laboratories
Jorma Lilleberg, Nokia Mobile Phone, FINLAND
Takis Mathiopoulos, University of British Columbia, CANADA
Mahmoud Naghshineh, IBM Watson Research Center
Masuo Nakagawa, Keio University, JAPAN
Jorge Pereira, Lisbon Technical Unniversity, PORTUGAL
Ramjee Prasad, Delft University of Technology, THE NEDERLAND
John Proakis, Northeastern University
Juha Rapeli, Philips Consumer Communications, FRANCE
D. Raychaudhuri, C&C Research Laboratories, NEC USA
Jesse Russell, AT&T Bell Laboratories
Asrar Sheikh, Hong Kong Polytechnic University, HONG KONG
Elvino Sousa, University of Toronto, CANADA
C-K Toh, Hughes Research Laboratories, Inc.
Reinaldo Valenzuela, Bell Laboratories
Andrew Viterbi, Qualcomm

Topics

Papers are welcomed in all areas of wireless personal communication systems and networks. Potential topics include, but are not limited to:

- Broadband multimedia wireless
- Frequency administration and utilization
- Experiments, trials and deployment
- Design tools
- Novel network & switching architectures
- Public and military applications
- Security and privacy
- Propagation studies
- Frequency management techniques
- Spread spectrum techniques
- Coding and modulation techniques
- Multiple access methods
- Antennas and RF subsystems
- Satellite networks
- Satellite navigation
- Chip sets for wireless applications

Instructions for Submission

Authors should submit 5 copies of original papers in English, no more than 3000 words with name(s), affiliation and full contact information of the author(s) on the title page. Additionally, the authors are requested to indicate the technical area of their paper by including on the title page any of the topic codes shown in the list of topics, or other key words describing the topic. The submission should be addressed to one of the PIMRC representatives before Feb. 28, 1998.

American Continent Submissions
Dr. K. Pahlavan
Electrical and Computer Eng. Dept.
Worcester Polytechnic Institute
Worcester, MA 01609 U.S.A.
Fax: (508) 831 5491
